## Amazon Augmented AI Sample Task UIs

This repository contains sample task UIs for [Amazon Augmented AI \(A2I\)](#). It contains subdirectories by use case (audio, images, text, video, other).

For additional task UI resources, please refer to the official documentation [here](#) and [here](#).

Amazon Augmented AI (Amazon A2I) makes it easy to build the workflows required for human review of ML predictions. Amazon A2I brings human review to all developers, removing the undifferentiated heavy lifting associated with building human review systems or managing large numbers of human reviewers.
